

100-245

## NESS COMBO SIREN

Attractive Rugged Combination Siren and Blue Strobe for External or Internal use. Compatible with all Ness Control Panels.

- Housing material: UV PC / white
- IP55 Weather-resistant
- Operating voltage: 12-15VDC
- Rated current: 380mA (Alarm Mode)
- Siren 115dB @ 1m
- Strobe technology: LED
- Strobe Colour: Blue
- Tamper Switch protection Front & Rear
- Size: 210 x130 x 78mm

Typical wiring diagram for most Ness control panels.  
\* Applying 12V to the LED terminals lights one LED in the LED array. This may be used as an indicator light driven by an automation output on the control panel.

Part No. 100-245 Ness Combo Siren Blue
